Document type	**SOP (Standard Operating Procedure)**				
Intended for	Chair, Secretary and members of the Local Bioethics Committee of HemCenter LLP				
Nomenclature code	I-05	**Number**	Issl-3-2	**Revision**	**001**
Title	**MAINTAINING CONFIDENTIALITY IN THE WORK OF THE LEC**				
Developed by	Business Development Director		Volyanskaya N.V.		15 May 2023
	Project Manager		Graf M.A.		15 May 2023
Agreed by	Medical Director		Klodzinskiy A.A.		29 May 2023
	Head of Patient Support and Internal Review Service		Demkina O.V.		29 May 2023
Approved	By Order of the Director General of HemCenter LLP No. I-02-52 dated 2 June 2023				
Implemented					
Revision policy	Upon changes in regulatory legal acts and/or operational need				

Purpose

To establish rules on the observance of confidentiality by the members of the Local Bioethics Committee of HemCenter LLP

Responsibilities

The Secretary of the Local Bioethics Committee of HemCenter LLP (LEC) is responsible for ensuring that the agreement is signed by all LEC members.

The Chair, Deputy Chair, members and Secretary of the LEC shall sign a confidentiality/conflict of interest agreement in order to protect the rights of study participants.

New members, experts, independent consultants, representatives of the investigator and the sponsor, inspectors and other persons admitted to review the study documentation or the LEC documentation shall read, understand, accept and sign the confidentiality/ conflict of interest agreement form before they begin their work.

No. Terms and definitions

a. **Biological equivalence** (hereinafter – bioequivalence) – the absence of significant differences in the rate and extent to which the active substance or active moiety of pharmaceutical equivalents or pharmaceutical alternatives becomes available at the site of its action when administered at the same molar dose under similar conditions in an appropriately designed study

a. **Investigator's Brochure** - a compilation of the results of the clinical and preclinical (non-clinical) study of the investigational product that are relevant to its study in humans.

b. **State expert organisation in the field of circulation of medicinal products and medical devices** (hereinafter – the expert organisation) – a state monopoly entity carrying out production and economic activities in the field of healthcare to en-

c. **Study design** - the overall plan of the study, a description of the manner in which the study is conducted depending on the selection and formation of groups of study subjects and the blinding (masking) of data.

d. **Contract** - a dated and signed agreement between two or more parties that sets out arrangements concerning the allocation of the scope of work and responsibilities in the conduct of a study and, where necessary, financial matters. The study protocol should serve as the basis of the contract.

e. **Case report form** - a document on paper, electronic or optical media designed to record all the information required by the protocol to be reported to the sponsor on each study subject.

f. **Interventional study** – a study involving a human as a study subject, in which the investigator-physician, on the basis of an interventional clinical trial protocol that complies with the procedure for conducting clinical trials, assigns a specific intervention to the study subjects.

g. **Informed consent** - a procedure by which a study subject or his or her legal representative voluntarily confirms consent to participate in a particular study after having been informed of all aspects of the study that are relevant to the decision. Written informed consent is documented using the form approved by the authorized body.

h. **Bioequivalence study** – a comparative study of bioavailability aimed at establishing pharmacokinetic equivalence between the test product and the comparator product.

i. **Investigator** - an individual responsible for the conduct of a clinical trial at the clinical sites of HemCenter LLP, a member of the research team.

Where a study is conducted at a clinical site by a group of investigators, a **Principal Investigator** - the head of the research team - is designated. The Principal Investigator is selected by the members of the Clinical Project Office and approved by the Director General of HemCenter LLP. The Order appointing the members of the research team (investigators) is approved by the directors of the branches and the division of HemCenter LLP

j. **Investigational product** - a pharmaceutical form of an active substance or placebo being tested or used as a control in a clinical trial, including an authorised medicinal product where it is used in a way different from the approved one, or when used for a new indication or to gain further information about an approved indication

k. **Ethics committee** - a consultative and advisory body established at the national level (the Central Bioethics Commission) and at the level of a medical organization, composed of specialists in healthcare and science and representatives of public organizations, which protects the rights, safety and well-being of study subjects and investigators and carries out the ethical and moral-legal assessment of clinical trial materials.

Local Bioethics Committee (LEC) of HemCenter LLP - an independent body that protects the rights, safety and well-being of patients, trial subjects, investigators and healthcare workers and carries out the ethical and moral-legal assessment of materials related to medical and scientific activities.

l. **Clinical site** - a healthcare organization that conducts clinical trials.

m. **Clinical trial** - a study involving a human as a subject, conducted to identify or confirm the safety and efficacy of means, methods and technologies for the prevention, diagnosis and treatment of diseases.

n. **Contract research organization** (CRO, Contract research organization) — an individual/organization that, under a contract with the sponsor, performs one or more of the sponsor's functions related to the conduct of a clinical trial.

o. **Confidentiality** - keeping information belonging to the sponsor, or information that makes it possible to identify a study subject, secret from unauthorized persons. Materials containing restricted information.

p. **Conflict of interest** - a situation involving a personal interest or the interest of a private individual that may affect the objectives of the study or the obligations of the members of the Local Bioethics Committee

q. **Medicinal product** – a product that is or contains a substance or combination of substances that comes into contact with the human body and is intended for the treatment or prevention of human diseases, or for restoring, correcting or modifying human physiological functions by exerting a pharmacological, immunological or metabolic action, or for the diagnosis of human diseases and conditions.

r. **Study materials** – a set of documents submitted by the sponsor of clinical trials to the clinical site, which includes the authorization of the authorized body in the field of healthcare of the Republic of Kazakhstan to conduct the given clinical trial and to designate those responsible for its conduct in accordance with the procedure approved in the Republic of Kazakhstan; the clinical trial protocol; the Investigator's Brochure;

explanatory documents on the specifics of the use of new medical technologies (where used) and other documents, as well as the draft clinical trial contract

s. **Medical record** — a medical document in which the attending physicians record the patient's medical history (inpatient or outpatient) and the treatment prescribed to the patient, in electronic or paper form.

t. **Multicenter clinical trial** - a clinical trial conducted according to a single protocol at more than one study center and by more than one investigator.

u. **Clinical trial monitor** – an individual appointed by the sponsor or contract research organization who works together with the coordinating investigator or coordinating committee and oversees the conduct of the clinical trial in accordance with the protocol, assesses the degree of its implementation, and assists the investigator in the analysis, interpretation and extrapolation of data.

v. **Monitoring** - the procedure of overseeing the progress of a biomedical study and ensuring that it is conducted, the data are collected and the study results are reported in accordance with the protocol, plan, programme, standard operating procedures and Good Clinical Practice.

w. **Good Clinical Practice (GCP)** - a standard for the design, organization, conduct, monitoring, auditing and recording of clinical trials, as well as for the analysis and reporting of their results, that provides assurance that the data obtained and the results reported are credible and accurate, and that the rights, health and confidentiality of study subjects are protected.

x. **Adverse incident** – any malfunction and/or deterioration in the characteristics or performance of a medical device, or any inadequacy or inaccuracy in the accompanying information (documentation) for a medical device, or side effects or an adverse reaction not specified in the instructions for use or the operating manual, which directly or indirectly led, or might have led, to the death or serious deterioration in the state of health of users or third parties.

y. **Adverse event** – any untoward change in the state of health of a patient or clinical trial (study) subject administered a medicinal (investigational) product, regardless of whether it has a causal relationship with its use.

z. **Impartial witness** - an individual not involved in the conduct of the clinical trial, - who assists the study subject, including by reading out the written materials supplied to him or her.

aa. **Non-interventional clinical trial** – a study that is conducted after the state registration of a medicinal product or medical device and is prescribed within the framework of medical practice.

bb **Original medical records** – see the term "source documents".

cc. **Essential documents** – documents which collectively or individually permit evaluation of the conduct of a study and the quality of the data produced. These documents serve to demonstrate the compliance of the investigator, sponsor and monitor with the standards of Good Clinical Practice (GCP) and with regulatory requirements.

dd **Clinical trial (study) report** - a document containing a description of a clinical trial of a therapeutic, prophylactic or diagnostic agent involving a human as a subject, which integrates the clinical and statistical descriptions, the presentation of data and their analysis; and long-term effects, including adverse reactions to the investigational medicinal product or medical device.

ee. **Source documents** – all information contained in original medical records and certified copies thereof that describes the results of clinical observations, examinations and other activities and makes it possible to reconstruct and evaluate the course of the clinical trial. Source data are contained in source documents (originals or certified copies thereof).

ff. **Comparator product** – an authorised medicinal product or placebo used as a control in a clinical trial.

gg. **Clinical trial protocol** - a document that describes the objectives, design, methodology, statistical considerations and organization of a study.

hh **Serious adverse event and/or serious adverse reaction** - an adverse reaction that results in death, is life-threatening, requires hospitalization of the patient or prolongation of existing hospitalization, results in persistent or significant incapacity or disability, or in congenital anomalies or birth defects, or requires medical intervention to prevent the development of the listed conditions

ii. **Protocol synopsis** - a brief summary of the clinical trial protocol.

jj. **Confidentiality agreement -** an agreement drawn up to ensure the non-disclosure of secrets, information and review by the persons in possession of such information

kk. **Clinical trial sponsor** – an individual or legal entity responsible for the initiation, organization and financing of a clinical trial.

ll. **Standard operating procedures** – detailed written instructions designed to achieve uniformity in the performance of a specific activity.

Study subject - an individual participating in a clinical trial either as part of the group receiving the investigational product or as part of the control group.

nn **Authorized body** in the field of healthcare – the Ministry of Health of the Republic of Kazakhstan.

oo **Clinical trial phase:** the first phase of a clinical trial – the first testing of a medicinal product, conducted in healthy volunteers or, where the high toxicity of the investigational product makes it unethical to conduct the study in healthy volunteers, in patients suffering from the relevant disease, in order to establish tolerability, safety, the presence of a therapeutic effect, and pharmacokinetic and pharmacodynamic characteristics;

the second phase of a clinical trial – a study aimed at assessing the efficacy and short-term safety of the investigational medicinal product in patients with a specific disease, as well as demonstrating the clinical efficacy of the medicinal product and determining the therapeutic dose level when tested in a group of patients;

phase four of a clinical trial – a study of a medicinal product conducted after its registration and placing on the market in order to confirm its therapeutic efficacy and the strategy for its further use, as well as to obtain additional information on the range and frequency of adverse effects and on the interaction of the investigational medicinal product with other medicinal products;

phase three of a clinical trial – a study conducted in large groups of patients of various ages and with various concomitant conditions in order to examine all aspects of treatment, including assessment of the risk: benefit ratio.

No. Procedure

1. **Procedure for the signing of the confidentiality/conflict of interest agreement by members of the**

Local Bioethics Committee and engaged specialists

Before members join the committee, the Secretary of the Local Bioethics Committee of HemCenter LLP (LEC) shall send the LEC members the confidentiality/conflict of interest agreement for signature in two copies in accordance with Appendix 1.

The Secretary shall send the Confidentiality/Conflict of Interest Agreement Form in accordance with Appendix 2 to experts, independent consultants and other specialists engaged in the work of the LEC. LEC members and other engaged specialists shall read, understand, accept and sign the confidentiality/conflict of interest agreement form before they begin their work.

After signing both copies of the confidentiality/conflict of interest agreement, the LEC members and the engaged experts, independent consultants and other engaged specialists shall return both copies to the LEC Secretary for signature.

One copy of the signed confidentiality/conflict of interest agreement shall be kept in the relevant LEC folder. The second signed copy of the confidentiality/conflict of interest agreement shall be kept by the signatory as an official document.

Should any questions arise, LEC members may contact the LEC Secretariat, which shall clarify questions concerning the content of the document. Where the matter is outside his or her competence, the LEC Secretary shall refer the LEC member to the LEC Chair or Deputy Chair for clarification.

2. **Procedure for the signing of the confidentiality/conflict of interest agreement by persons who have reques-**

ted copies of documents containing confidential information of the LEC

When persons contact the LEC Secretariat with a request for copies of documents containing confidential information of the LEC, the Secretary shall notify the Chair and agree with him or her the list of documentation to be provided. Before providing the information in accordance with the request, the LEC Secretary shall send the confidentiality/conflict of interest agreement for signature in two copies in accordance with Appendix 3.

One copy of the signed confidentiality/conflict of interest agreement shall be kept in the relevant LEC folder. The second signed copy of the confidentiality/conflict of interest agreement shall be kept by the signatory as an official document.

Storage of the confidentiality/conflict of interest agreement

Confidentiality/conflict of interest agreements shall be kept in the LEC archive, in a place accessible to a limited number of persons.

Appendix 1

Confidentiality and Conflict of Interest Agreement

I (full name, position), _____ hereinafter referred to as the "Undersigned", hereby certify that, as a member of the Local Bioethics Committee of HemCenter LLP (hereinafter - the LEC), I undertake to assess scientific research involving human participants in accordance with the principles of humanism and ethical norms and the high standards of medical care defined by international and national regulatory and legal acts, and to comply with the terms of this Agreement.

Terms of the Agreement:

You have been appointed a member of the LEC as a private individual, and not as a representative of any community or as an advocate of the interests of any organisation or of your own. Your primary duty is to conduct an independent review of both the ethical and the scientific aspects of research involving human participants, to make decisions and to issue recommendations that are as objective as possible, based on the objectives of the LEC.

The activities of the LEC must meet the highest ethical standards in order to justify the trust of the community by protecting the rights and well-being of study participants. As a member of the LEC, you are expected to meet high ethical standards in the performance of your duties.

This agreement applies to any information regarded as confidential or proprietary that is entrusted to the Undersigned together with the duties of an LEC member. Any written information entrusted to the Undersigned that is confidential, private and inviolable must be identified accordingly.

The Undersigned undertakes to maintain confidentiality and to keep the trade and commercial secrets entrusted to him or her (not to disclose "secret information"), and promises not to use it for purposes other than those prescribed and not to disclose it to any third party. Written confidential information provided for review shall not be copied and shall not become the subject of any transaction. All confidential information submitted for review (all copies and records) shall remain the exclusive property of the LEC.

In performance of this agreement, the Undersigned undertakes not to disclose or use – directly or indirectly – any information belonging to a third party. In addition, the Undersigned confirms that his or her actions in performance of this agreement do not conflict with the policy of the organisation within which the LEC has been established.

Conflict of interest

It is recognised that potential grounds for a conflict of interest will always exist, as does the belief that the LEC and its Chair will be able to find a way out of a conflict situation for the sake of the highest goal – the protection of human rights.

The policy of the LEC is aimed at preventing LEC members who have a conflicting interest in a given area from participating in the review, discussion and decision-making on any activity in that area.

You must immediately notify the LEC Chair of any actual or potential conflicting interests you have in connection with any particular matter under consideration by the LEC and refrain from any participation in discussions or from expressing opinions on that matter.

If the applicant who submitted the study protocol believes that one of the LEC members has a potential conflicting interest, the applicant is entitled to request that this LEC member be excluded from the experts conducting the review.

The request shall be submitted in writing to the Chair. It must state the reasons and provide arguments confirming that the LEC member(s) has (have) a conflict of interest. The LEC may decide to investigate the applicant's claims.

If an LEC member has a conflict of interest, he or she may not take part in the review or in decision-making, except for providing information at the request of the LEC.

Possible causes of a conflict of interest:

an LEC member may be involved in a potentially competing research project; an LEC member has access to sources of funding or to intellectual information, which gives him or her an opportunity for lobbying;

the personal attachments of an LEC member prevent him or her from being objective when making a decision.

Final part

Please sign and date this document if the Undersigned agrees with the terms set out in it. The signed and dated original will be kept in a special folder under the control of the LEC. A copy of the agreement will be issued to you as an official document.

During my service as an LEC member, confidential information and documentation (hereinafter referred to as "confidential information") may be entrusted to me. I undertake to take all possible measures to maintain confidentiality in accordance with the current legislation of the Republic of Kazakhstan; I undertake not to disclose confidential information to anyone, not to use confidential information for purposes other than those defined by my mandate and, in particular, not to use confidential information for my own benefit or for the benefit of a third party; I undertake to return all confidential information (including all minutes and records that I kept in accordance with my duties in the LEC) to the Chair upon expiry of my term of office as an LEC member.

If a conflict of interest arises on my part, I undertake to inform the LEC Chair immediately so that I may be excluded from voting or from meetings requiring a quorum.

I, _____, have read and agree with the above terms as they are set out in this Agreement.
